Club Events

When you're organizing an event on the SISEAP website, there's an important detail to take note of regarding the image for your event. The specifications for the image size should be **375 pixels in width and 220 pixels in height.**

These dimensions ensure that your image fits perfectly into the designated space on the site, making your event look professional and appealing. Remember, adhering to these image dimensions is crucial to maintain the SI branding.

Tip

To effectively promote your event, it is recommended to create two images: a thumbnail and a larger image. The thumbnail will be displayed on the event front page and should feature a concise description, such as:

- "Invitation to [Event Name]"
- Date or Club Name

This brief summary should be concise and easy to read. The larger image, which will be inserted in the event description, can provide more detailed information about the event. Please avoid overloading the thumbnail with too much information, as this can result in a cluttered and unreadable display. Tipsheet available to download from the SISEAP website, in the downloads section.
